

Lab3:

The main idea of this assignment is to provide hands on experience on the following topics

Grep

Pipe

redirection

read

command Line arguments

head,tail,tr

1. Create a file “poem.txt” with the following lines

We have not wings, we cannot soar;
But we have feet to scale and climb
By slow degrees, by more and more,
The cloudy summits of our time.

The mighty pyramids of stone
That wedge-like cleave the desert airs,
When nearer seen and better known,
Are but gigantic flights of stairs.

The distant mountains, that uprear
Their solid bastions of the skies,
Are crossed by pathways that appear
As we to higher levels rise.

The heights by great men reached and kept
Were not attained by sudden flight,
But they, while their companions slept,
Were toiling upward in the night.

END

Henry Wadsworth Longfellow (1807–1882) was an American poet and educator.

```
(kali@kali)-[~]  
$ gedit poem.txt
```

Do the following task using grep command

- a. Print all the lines with the pattern “they”

```
(kali@kali)-[~]
$ grep 'they' poem.txt
But they, while their companions slept,
```

- b. Print all the lines other than pattern “They”

```
(kali@kali)-[~]
$ grep -v 'They' poem.txt
We have not wings, we cannot soar;
But we have feet to scale and climb
By slow degrees, by more and more,
The cloudy summits of our time.
The mighty pyramids of stone
That wedge-like cleave the desert airs,
When nearer seen and better known,
Are but gigantic flights of stairs.
The distant mountains, that uprear
Their solid bastions of the skies,
Are crossed by pathways that appear
As we to higher levels rise.
The heights by great men reached and kept
Were not attained by sudden flight,
But they, while their companions slept,
Were toiling upward in the night.
END
Henry Wadsworth Longfellow (1807-1882) was an American poet and educator.
```

- c. Print all the lines starts with “w”

```
(kali@kali)-[~]
$ grep '^w' poem.txt
```

- d. Print the next lines after the pattern “stone” matches

Hint: man grep

```
(kali@kali)-[~]
$ grep -A 1 'stone' poem.txt | tail -n +2
That wedge-like cleave the desert airs,
```

- e. Print the 2 lines above the pattern “stone” matches

Hint: man grep

```
(kali@kali)-[~]
$ grep -B 2 'stone' poem.txt | head -n +2
By slow degrees, by more and more,
The cloudy summits of our time.
```

f. Search the pattern with exact match

```
(kali@kali)-[~]
$ grep -o 'and' poem.txt
and
and
and
and
and
```

2. Explore variations of grep command

- a. ngrep
- b. pgrep
- c. zgrep
- d. egrep

3. Write a shell script to get the pattern and filenames from the user and check whether the pattern is present or not.

```
#!/usr/bin/bash
read -p "Enter the pattern to search: " pattern
read -p "Enter the filename to search in: " filename

if [ -f "$filename" ]; then
    grep "$pattern" "$filename"
else
    echo "File does not exist."
fi
```

```
(kali@kali)-[~]
$ ./script_patt.sh
Enter the pattern to search: they
Enter the filename to search in: poem.txt
But they, while their companions slept,
```

4. Rewrite the above shell script using command line arguments. (pass the pattern and file through command line arguments)

```
1 #!/usr/bin/bash
2
3 pattern=$1
4 filename=$2
5
6 if [ -f "$filename" ]; then
7     grep "$pattern" "$filename"
8 else
9     echo "File does not exist."
10 fi
```

```
kali@kali: ~  
File Actions Edit View Help  
(kali@kali)-[~]  
$ gedit script_patt.sh  
(gedit:25130): tepl-WARNING **: 09:42:36.938: Style scheme 'Kali-Dark' default style scheme.  
(gedit:25130): tepl-WARNING **: 09:42:36.938: Default style scheme for installation.  
(kali@kali)-[~]  
$ ./script_patt.sh 'they' 'poem.txt'  
But they, while their companions slept,
```

5. Write a shell script to count total number of regular files in the current working directory.

```
1 #!/usr/bin/bash  
2 count=$(find . -maxdepth 1 -type f | wc -l)  
3  
4 echo "Number of regular files in current directory: $count"  
5
```

```

File Actions Edit View Help  
(kali@kali)-[~]  
$ gedit count.sh  
(gedit:11338): tepl-WARNING **: 09:14:56.799: Style scheme 'Kali-Dark' default style scheme.  
(gedit:11338): tepl-WARNING **: 09:14:56.799: Default style scheme for installation.  
(gedit:11338): Gtk-WARNING **: 09:15:38.118: Calling org.xfce.SessionManager:org.freedesktop.DBus.Error.UnknownMethod: No such method "Inhibit"  
(kali@kali)-[~]  
$ chmod +x count.sh  
(kali@kali)-[~]  
$ ./count.sh  
Number of regular files in current directory: 37
```

6. pipe
a) Pick the line from 3 to 5.

```
(kali@kali)-[~]  
$ sed -n '3,5p' poem.txt  
By slow degrees, by more and more,  
The cloudy summits of our time.  
The mighty pyramids of stone
```

- b) List the top 5 largest files in a directory and display their sizes

```
(kali@kali)-[~]  
$ ls -ls |head -n 6  
total 128  
4 -rw-rw-r-- 1 kali kali 78 Aug 6 10:09 10.bash  
4 -rw-rw-r-- 1 kali kali 52 Aug 13 09:05 anu1.txt  
4 -rwx--x--x 1 kali kali 214 Aug 11 12:18 anusha  
4 drwxrwxr-x 2 kali kali 4096 Aug 21 13:49 anushapatil  
4 -rw-rw-r-- 1 kali kali 94 Aug 5 14:54 anusha.sh
```

c) Print the last 2 modified file details

```
(kali㉿kali)-[~]
└─$ ls -lt | head -n 3
total 128
-rw-rw-r-- 1 kali kali 1565 Aug 21 14:30 content.txt
-rwxrwxr-x 1 kali kali 289 Aug 21 14:22 script_patt.sh
```

7. Redirection

a) Convert uppercase into lowercase characters

```
(kali㉿kali)-[~]
└─$ tr 'A-Z' 'a-z' < poem.txt > outputFile.txt
```

```
(kali㉿kali)-[~]
└─$ cat outputFile.txt
we have not wings, we cannot soar;
but we have feet to scale and climb
by slow degrees, by more and more,
the cloudy summits of our time.
the mighty pyramids of stone
that wedge-like cleave the desert airs,
when nearer seen and better known,
are but gigantic flights of stairs.
the distant mountains, that uprear
their solid bastions of the skies,
are crossed by pathways that appear
as we to higher levels rise.
the heights by great men reached and kept
were not attained by sudden flight,
but they, while their companions slept,
were toiling upward in the night.
end
henry wadsworth longfellow (1807-1882) was an american poet and educator.
```

b) List the contents of your current directory, including the ownership and permissions, and redirect the output to a file called contents.txt within your home directory.

```
(kali㉿kali)-[~]
└─$ ls -l
total 132
